May to June 2017 : WebDev for Agence BigMoustache
June to September 2016 : Order picker

My skills

Hardware maintenance	Management and inventory of IT equipment
Software maintenance	Data protection and backup
Addressing subnets	HTML5, CSS3, Ajax

My career

Attracted by the informatic technology since my young years, I've learn a lot of theories as a self-taught.
I did a training at PopSchool which teached me all the basics to understand how programming works. Thanks to the GRETA, in Douai, I've learned and praticed how to deploy networks and IT equipments, with the ability to monitor the system to keep it updated. Next ? Improve my skills in the industry !
